

Anaphylaxis and Autoinjectors

Anaphylaxis is an extreme and potentially life-threatening allergic reaction, which results in rapid chemical changes in the body. In the UK it is estimated that almost 20% of the population is affected by at least one allergic disorder.

Anaphylaxis is characterised by quickly developing life-threatening airway, breathing and/or circulation problems. The swelling and tightening of the airway causes breathing difficulties and/or a sudden fall in blood pressure, which can lead to dizziness and fainting.

Autoinjectors offer fast-acting relief to somebody suffering an anaphylactic reaction. The successful administration of a device can prevent serious consequences and provide enough time for emergency services to attend and treat the sufferer.

The course

Highfield's Anaphylaxis and Autoinjector Short Course is designed to help you understand the risks of a severe allergic reaction and how to administer emergency treatment.

The course outlines how anaphylaxis can be caused by a broad range of 'triggers', such as insect stings, foods, for example nuts and shellfish, latex and medicines, such as penicillin.

Learners will also learn how to recognise the symptoms and identify how to administer first aid to a casualty who is suffering from anaphylaxis.

Areas covered

- Reactions to allergens
- Anaphylaxis
- An employee's responsibility
- Adrenaline autoinjectors
- Common traits

Who is it aimed at?

Any employee or manager working in an environment where an understanding of anaphylaxis and autoinjectors would be beneficial. This course can be used as a stand-alone module or included in an induction programme.

Key details at a glance

Duration:	30 minutes
Audience:	Any employee, manager or apprentice
Prerequisites:	No prior knowledge needed
Assessment:	Multiple-choice questions
Certificated:	Yes - Highfield Completion Certificate
Demo:	Yes
LMS:	Yes
Compatibility:	Laptop/Desktop PC Internet Explorer 11, Microsoft Edge, Google Chrome, Mozilla Firefox Apple iMacs/Macbooks Safari, Google Chrome, Mozilla Firefox iPads Safari, Google Chrome for tablets Android/Windows - based tablets Google Chrome for tablets, Mozilla Firefox, Microsoft Edge, Internet Explorer 11 <i>NOTE: Enabling JavaScript and a stable broadband connection are required.</i>
Support:	Tel: 0845 226 0350 Email: support@highfield.co.uk
Translation:	Details available on request
Localisation:	UK and EU legislation, but suitable for international businesses that trade with the UK and EU and may be subject to the legislation.
