INTRODUCTION TO FIRE SAFETY IN THE WORKPLACE

hot

highfield online training

The costs associated with fire are significant, ranging from physical costs such as destruction of property, loss of income and increased insurance premiums to immeasurable costs including loss of life, severe injury and reputational damage. This course will help you understand these risks and the steps that can be taken to mitigate them.

Areas covered

- Introduction to fire safety
- The fire triangle and fire hazards
- How fire spreads and rapid fire progress
- Passive and active fire protection
- Fire extinguishers and their usage
- Actions in the event of a fire
- Employee roles and responsibilities
- Fire risk assessment and regulatory compliance
- Fire safety procedures and summary

Who is it aimed at?

This course is ideal for employees, contractors, supervisors and managers across any sector that require an understanding of fire safety as part of their work and need an awareness of the associated risks and control measures.

Multi-device compatible

This course is compatible with most popular desktops and tablets. Mobile phones are not recommended.
