

ANAPHYLAXIS AND AUTO-INJECTORS

hot

highfield
online training

Anaphylaxis is a severe allergic reaction that can develop suddenly and become life-threatening. This course helps learners recognise the signs and symptoms of anaphylaxis, understand common triggers and respond quickly and confidently, including the safe use of adrenaline auto-injectors.

Areas covered

- Understanding allergic reactions and common allergens
- Recognising the signs and symptoms of anaphylaxis
- Responding to suspected anaphylaxis
- Using adrenaline auto-injectors safely
- Employer and employee responsibilities
- Good practice in the workplace

Who is it aimed at?

Ideal for employees and managers working in environments where there is a risk of severe allergic reactions. Suitable for workplace induction, staff awareness training and organisations looking to improve their response to anaphylaxis.

Multi-device compatible

This course is compatible with most popular desktops, tablets and mobile devices.
